MongoDB 8 install

Last updated by | Steve Palmer | 13 Jun 2025 at 12:51 BST

Viability - MongoDB 8.0 install

Note: Mongo Shell (CLI) & Databsse Utility tools, now separate downloads & installs

Install files location: **(S:)Software\Development\Mongo 8**

MongoDB manual: https://www.mongodb.com/docs/manual/

Installing MongoDB 8 Server

install file: **mongodb-windows-x86_64-8.0.10-signed.msi**

- create folder `C:\Mongo-8-0-10`
- run install file
  - choose "**Custom Install**" & select above location
  - choose "**Install MongoDB as a Service**"
  - select checkbox ✅ install Compass tool

update config file settings: C:\Mongo-8-0-10\bin\mongod.cfg

```
# Where and how to store data.
storage:
dbPath: C:\Mongo-8-0-10\data

# where to write logging data.
systemLog:
destination: file
logAppend: true
path: C:\Mongo-8-0-10\log\mongod.log

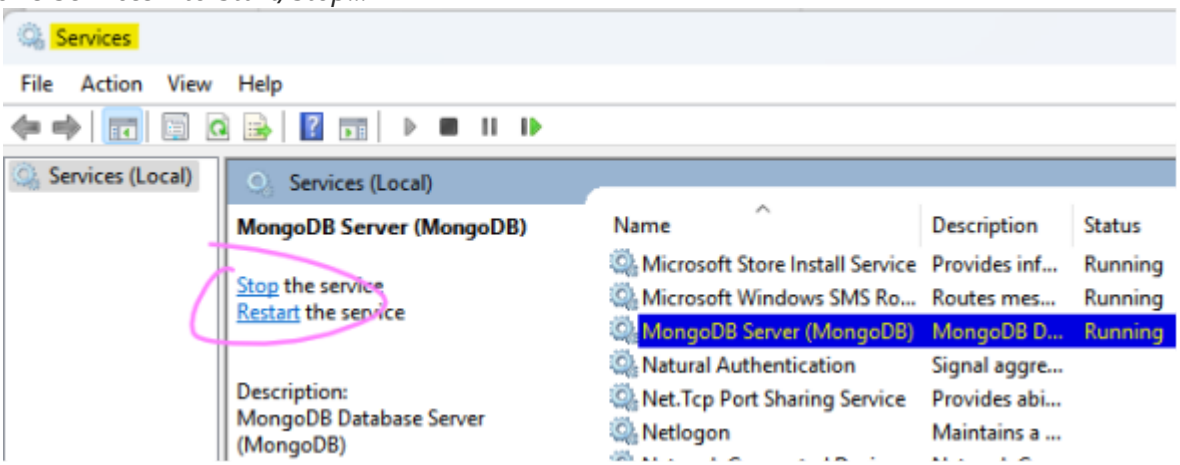

# network interfaces
net:
port: 27017
bindIp: 127.0.0.1
```

create admin user

```
use admin
db.createUser(
   {
     user: "admin",
     pwd: "password",
     roles:
       [
         { role: "root", db: "admin" }
       ]
   }
)
show users
```

Startup - *via* MongoDB Service

Windows Services - to Start/Stop...

or Startup manually *(powershell)*

can stop above service & just startup MongoDB in a command window

```
cd C:\Mongo-8-0-10\
bin\mongod.exe --config="bin\mongod.cfg"
```

Running multiple MongoDB instances locally

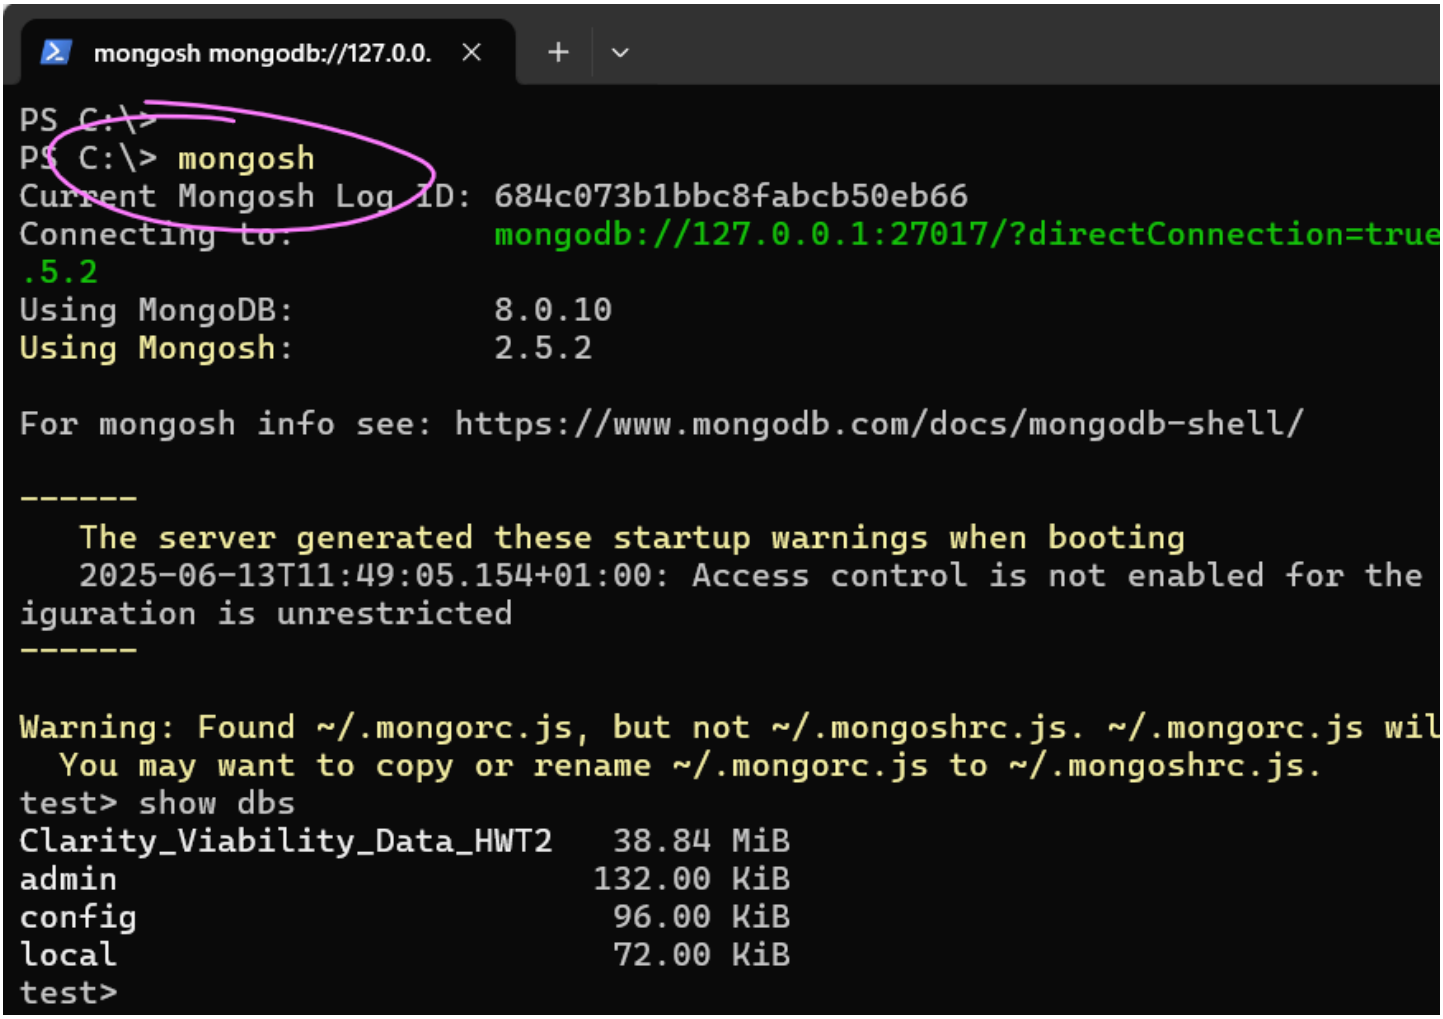

To startup both the original MongoDB 3.4.x version alongside the MongoDB 8.0.x, can simply change one of them to use a difference port number, within the **mongod.cfg**

The version you want your local application to connect to, keep on port **27017**

Install Mongo Shell (mongosh)

Install file: **mongosh-2.5.2-x64.msi**

run `mongosh` command to start the CLI. *Note: installs adds to PATH env var*

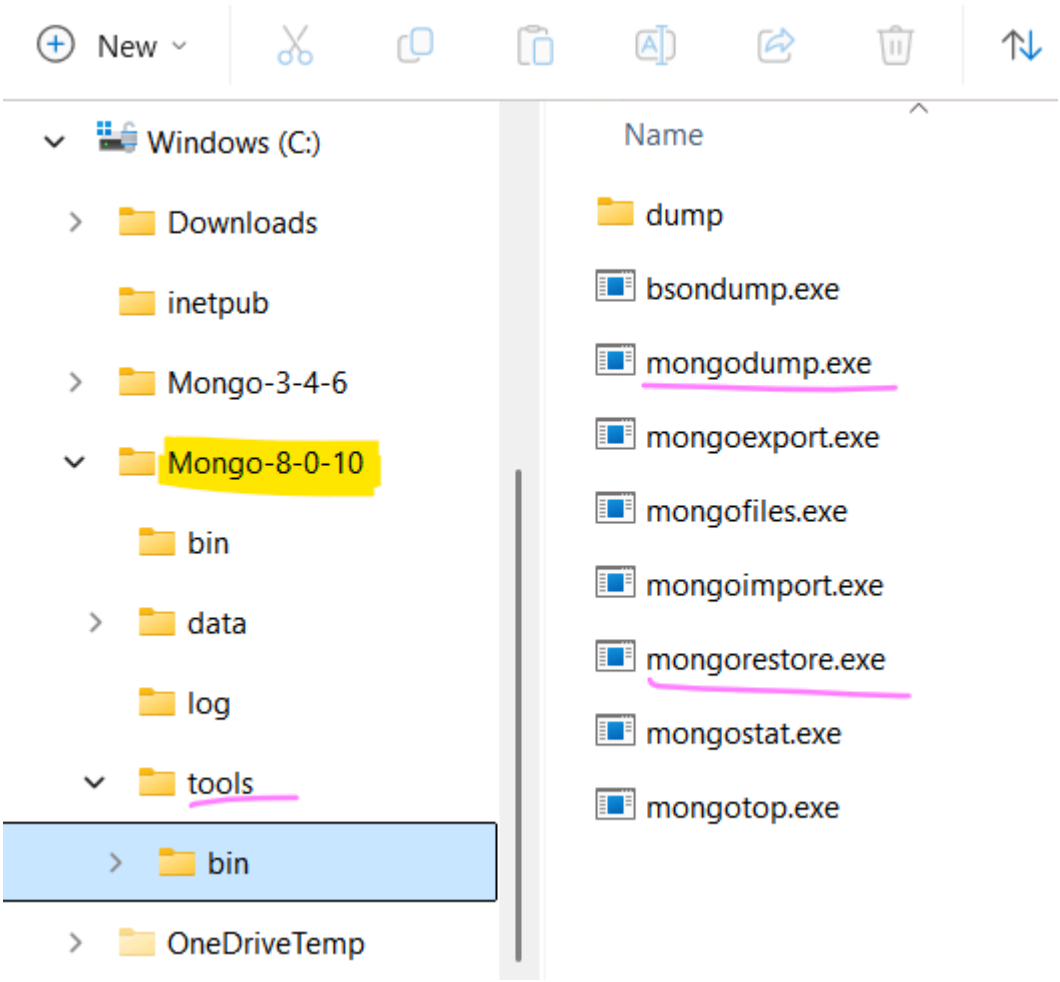

Install MongoDB Database Utility Tools

link to MongoDB install documentation
https://www.mongodb.com/docs/database-tools/installation/installation-windows/

Install file: **mongodb-database-tools-windows-x86_64-100.12.2.msi**

Install to `C:\Mongo-8-0-10\tools`
